Paulo Cabral

Senior QA Engineer | Test Automation | Banking and Large Enterprises

São José dos Pinhais, PR, Brazil | paulocabral_90@hotmail.com | linkedin.com/in/paulo-cabral-qasenior | github.com/PauloCabralGit | paulocabralgit.github.io/portifolio

SUMMARY

Senior QA Engineer with 15 years of experience in manual and automated testing of web, mobile, API and backend applications at banks and large companies (Itaú, Thomson Reuters, Banco ABC, Raízen). Specialist in test automation with Robot Framework, Playwright, Cypress, Selenium and Appium, in API and security testing, and in AI applied to testing with Claude Code.

KEY ACHIEVEMENTS

- Cut feature-flag API test execution from **30 to 3 minutes (-90%)**.
- Took Raízen's regression suite to **100% automation with 89% system coverage**.
- Designed the Robot Framework automation architecture adopted as the **standard by every squad** at Banco ABC.
- Worked on Itaú's DDA Automático (+100k new customers) and on campaigns that drove +1 million sign-ups.

PROFESSIONAL EXPERIENCE

Senior Quality Engineer — MB Labs Dec 2024 – Aug 2026

Client: Thomson Reuters (legal and tax content, software and technology) · Remote

- Cut feature-flag API test execution from 30 to 3 minutes (-90%) through automation, giving the team near-instant feedback on every deploy.
- Prevented exposure of login screens and tokens on insecure ports through security testing of the feature flags, mTLS/TLS and Apigee rollout.
- Ensured the quality of 3 accounting apps (Client, Accountant and Employer), including the core banking system, through API, mobile and web testing.
- Expanded coverage with mobile automation in Playwright and TypeScript, cross-browser testing (BrowserStack) and accessibility testing (Axe), monitored in DataDog and run through Azure DevOps.
- Started using AI to generate BDD scenarios, test plans and test runs.

Apigee, mTLS/TLS, Playwright, TypeScript, DataDog, BrowserStack, Axe, Azure DevOps, Claude Code, Postman, Bruno

Senior Quality Engineer — Zup Innovation Aug 2023 – Dec 2024

Client: Itaú Unibanco, the largest private bank in Brazil and Latin America · Remote

- Ensured the launch of DDA Automático (+100k new customers) through regression, API, web and mobile testing with Robot Framework.
- Supported campaign landing pages (Euro Cup, Champions League, Mastercard and Visa) with test data and manual and automated scenarios, contributing to +1 million new sign-ups.
- Reduced manual test planning and maintenance effort by building AI agents with Claude Code that generate plans and scenarios, run them in the pipeline and tell a UI-element failure from a real systemic error.
- Took part in the Pix transfer update, validating critical payment flows.

Robot Framework, Playwright, Python, TypeScript, Claude Code, AWS, DataDog, Firebase, Docker Compose, MongoDB

Senior QA Automation Engineer — Talent Four Consulting Sep 2022 – Aug 2023

Client: Banco ABC Brasil, wholesale bank listed on B3 · São Paulo

- Standardized automation across all of the bank's squads with a Robot Framework and Python architecture I designed as technical lead.
- Enabled self-service for corporate customers through testing and technical ownership of the Salesforce Experience Cloud community, covering payments and user management.
- Reduced production-change risk through impact analysis, BDD scenarios and QA/UAT validation.

Robot Framework, Python, Salesforce, Azure DevOps, Postman

Senior Test Analyst — Raízen Sep 2021 – Sep 2022

Cosan and Shell joint venture, bioenergy and fuel distribution · Curitiba

- Took regression to 100% automation with 89% system coverage through a dedicated squad using C# and Selenium.
- Ensured the Salesforce system that manages Shell stations works reliably by automating service tickets and fuel requests.
- Expanded coverage with BDD and mobile automation in Appium.

C#, Selenium, Appium, Salesforce, BDD, Jira/QAlity, Git

Senior Test Analyst — Ouro Verde Locação e Serviço Oct 2019 – Sep 2021

- Testing and test cases for Dynamics AX 2012 and Salesforce, with automation in C# and Cypress and mobile testing with Jest.
- QA/UAT validation, acceptance support and production impact analysis.

Earlier roles (Test Analyst) 2011 – 2019

Prime Control (2018–2019) · Contabilizei (2015–2016) · MalaPronta.com (2015) · Stefanini Brasil (2014–2015) · BRQ Digital Solutions (2011–2014, core banking testing with HP Quality Center).

SKILLS

Automation: Robot Framework, Playwright, Cypress, Selenium, Appium, Jest
Languages: Python, TypeScript, JavaScript, Java, C#
API and security: Postman, Bruno, Insomnia, Swagger, Apigee, mTLS/TLS
Quality and CI/CD: BDD, Azure DevOps, GitHub, GitLab CI/CD, Jenkins, Docker Compose
Observability and accessibility: DataDog, BrowserStack, Axe
Data and cloud: PostgreSQL, MongoDB, AWS
AI applied to QA: Claude Code agents
Salesforce: testing, administration and Experience Cloud

EDUCATION AND CERTIFICATIONS

Associate degree (Tecnólogo) in Systems Analysis and Development — UNINTER (2021–2023)
Salesforce ADM201 · PostgreSQL Intermediate · Postman Advanced · Git and CI (Jenkins, GitLab) · Agile Methodologies
